An interesting point in law was re-  
cently brought out in an Alabama  
county, says the Kansas City Jour-  
nal. Two weeks ago a negro was  
hanged for murder in due process.  
The body was cut down and pro-  
nounced dead by the physician at-  
tending, and was then turned over to  
the relatives, who took it away.

They observed signs of life in it,  
whereupon a physician was called in,  
who applied restoratives and the man  
came back to his former existence in  
which he now abides in health and  
strength. The question is whether  
the law can again lay hands upon  
him for that crime, since officially he  
has paid the full penalty, and stand-  
ards as dead in the legal records of the  
case.

One of Columbia's High school  
graduates, the salutatorian of her  
class, Miss Myrtle Duncan attended  
school twelve years, and during nine  
years of her school life did not miss a  
day, was not tardy, missed no recita-  
tions, never had to stand an exam-  
ination and make an average grade in  
her studies for the nine years of 95  
per cent. In the eleven years she was  
absent only three times.

Those who are gaining flesh  
and strength by regular treat-  
ment with

Scott's Emulsion

should continue the treatment  
in hot weather, smaller doses  
and a little cod liver oil will  
do away with any objection  
which is attached to fatty pro-  
ducts during the heated  
season.
